

# Berberine Plus

**400 mg of Berberine and 100 mg of ALA**

Berberine Plus is a targeted formula designed to help support healthy blood sugar metabolism and antioxidative status.\* It features berberine, a botanical extract from *Berberis aristata*. Research indicates that berberine may support pathways related to blood sugar and lipid metabolism in the human body. Berberine may help support blood vessel health, cardiovascular function, and a normal inflammatory response.\*

This formula also contains alpha-lipoic acid (ALA), a molecule that may help support blood sugar metabolism and antioxidative status.\* It has been shown to help support healthy metabolism and a normal inflammatory response.\* It may also help support brain health and healthy blood vessel function.\*

Together, berberine and ALA may provide synergistic properties to help promote healthy metabolism.\* Berberine Plus may help support normal blood sugar metabolism, healthy cardiovascular function, antioxidative status, and cellular health.\*

## Benefits of Berberine Plus

- Supports healthy blood sugar metabolism
- Promotes cardiovascular health
- Supports normal lipid metabolism
